Sep 2022 - Dec 2022

*Web Developer*

Rumah Mocaf Indonesia, PT is a producer and exporter of gluten free all purpose flour from cassava which can be used as the main ingredient for baking and cooking.

Rumah Mocaf was firstly initiated as an empowerment program for cassava farmers in Banjarnegara, Indonesia in 2014. The project developed into a sociopreneur-based industry since 2017 and we have collaborated with more than 452 farmers divided into 11 fostered Cassava Farmer Groups.

Rumah Mocaf is committed to build an environmentally sustainable and responsible business. In the effort to reach the goal we collaborate with our Cassava Farmers Group to implement environmentally responsible and integrated farming

- Apply some of the courses I took to develop this website starting from web programming, informatics project management, and software quality testing as well as introductory accounting because the system developed is a financial information system.
- The financial information system created based on the needs regarding the financial management of PT Rumah Mocaf Indonesia.

**Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka - Jakarta, Indonesia**

Aug 2023 - Jan 2024

*Mobile Development (Android) Cohort*

Bangkit is a unique career readiness program led by Google and delivered with support from industry experts from our industry partners like Gojek, GoTo and Google. The program is designed to provide the participants with first-hand exposure to real-world practitioners and prepare them with relevant skills for a successful career in leading tech companies.

- I learned through the dicoding platform from starting software development to creating applications using Kotlin language.
- I learned seven soft skills materials ranging from Growth Mindset and The Power of Feedback to Professional Branding and Interview Communication.
- I learned English as my daily language during the Bangkit program.

**Informatic's Laboratory - Universitas Jenderal Soedirman (Purbalingga, Indonesia)**
